VINODH KUMAR POOMARI

ENTERPRISE PROGRAM DELIVERY LEADER · AI PRODUCT BUILDER

PROFILE SUMMARY

- Proven expertise in leading enterprise transformation programs while aligning strategic priorities with measurable business outcomes consistently.
- Extensive experience in driving cross-functional delivery, portfolio governance, and financial oversight across global banking engagements.
- Advanced knowledge in JIRA, Power BI, Clarity, SharePoint, and Tableau strengthening enterprise execution and decision-making.
- Designed and shipped three AI-powered product prototypes — **PM Control Tower**, **Jigglypuff** and **The Fix** — built end-to-end with AI-assisted development and deployed live.
- Demonstrating excellence in implementing Agile governance, regulatory initiatives, and scalable operating frameworks across business functions.
- Championing initiatives in mentoring delivery teams while accelerating execution through automation and technology-driven operational improvements.

AI DEVELOPMENT & PRODUCTS — DESIGNED, BUILT & SHIPPED LIVE

PM Control Tower — Enterprise PPM Platform ("The Command Center")

Enterprise Project, Program & Portfolio Management platform where leadership never asks for status — live operational data aggregates into decision-ready views.

- Executive Control Tower: RAG + GREY honesty, exception-first feed, traceable insights and one-click Leadership Pack with 17 sub-reports.
- Portfolio → Program → Project → WBS hierarchy, CPM schedule engine (critical path, float), EVM engine (CPI/SPI/EAC/VAC), RAID and governance rules engine.
- Agile sprints, Kanban/Calendar/Workload boards, Monte Carlo P80 forecasting, evidence bundles and investment governance (ROI/NPV/IRR).

Live: pmct.vercel.app

Jigglypuff — Unified Voice AI Assistant

One local-first voice AI fusing natural conversation, deep research, meeting intelligence and human-gated tools.

- Voice conversation with barge-in, empathic tone adaptation in 80+ languages, and deep-research answers with citation cards.
- Meeting intelligence: live timestamped transcription compiled into summaries; HITL approval gates for high-risk actions.
- Dashboard with automated daily worklog, ticketing, lead capture, scheduling and continuous-learning vocabulary — 100% local-first privacy.

Live: jigglypuff-ai.vercel.app

The Fix — Solution Discovery & Architecture Engine

Agentic AI engine that turns vague requirements into costed, dual-track technical architectures and PoC blueprints.

- Global market analysis plus Agile/Lean vs Enterprise Scale architectures with KPIs, team costs and Probability-of-Success scoring.
- Five-agent LangGraph pipeline with live streaming, What-If re-scoring, Mermaid.js diagrams and 6-week PoC blueprints.
- Exports to PPT/DOC/CSV/PDF; ships as web SPA, Windows desktop (Tauri) and mobile (Capacitor/PWA).

KEY HIGHLIGHTS

- Designed and shipped three live AI product prototypes — PM Control Tower, Jigglypuff, and The Fix — covering PPM intelligence, voice AI, and agentic solution discovery.
- Delivered zero-audit-error digital banking implementations across multi-million-dollar strategic transformation initiatives.
- Led HSBC WPB Asset Management Client Business initiatives supporting enterprise-wide portfolio transformation.
- Served as organizational SME for JIRA, Power BI, Clarity, SharePoint, Tableau, and enterprise delivery platforms.
- Developed AI-enabled workflow solutions accelerating project documentation, RAID analysis, and operational execution.

SOFT SKILLS

- Strategic Thinking
- Decision Making
- Team Leadership
- Analytical Thinking
- Problem Solving
- Relationship Building
- Executive Communication

WORK EXPERIENCE

Senior Program Management Consultant | Capco Technology Pvt. Ltd. | Bengaluru, India | 2022 – Present

- **Enterprise Delivery:** Leading strategic banking transformation programs across global portfolios, including HSBC WPB Asset Management Client Business initiatives.
- **Execution Strategy:** Creating project charters, business cases, delivery roadmaps, and governance models enabling structured program execution.
- **Hybrid Leadership:** Managing Project Management and PMO functions while directing cross-functional teams and collaborating with C-level executives on delivery priorities.
- **Delivery Recovery:** Identifying overdue milestones, removing execution bottlenecks, and restoring delivery commitments across multiple workstreams.
- **Portfolio Intelligence:** Developing Power BI reporting frameworks providing leadership with actionable portfolio insights and business visibility.
- **Technology Leadership:** Serving as organizational SME for JIRA, Confluence, Clarity, SharePoint, Tableau, and Power BI platforms.
- **Automation Enablement:** Designing AI-enabled and RPA solutions reducing manual effort through intelligent workflow automation.
- **Leadership Reporting:** Delivering executive presentations, strategic scorecards, portfolio updates, and monthly governance reviews for senior leadership.

Senior Consultant | Ujjivan Small Finance Bank | Bengaluru, India | 2021 – 2022

- **Banking Delivery:** Delivered liabilities and treasury initiatives from planning through production implementation across business functions.
- **Digital Transformation:** Launched Digital Account Opening and Video KYC solutions achieving zero audit errors during go-live.
- **Portfolio Execution:** Managed multi-million-dollar programs covering planning, vendor governance, deployment, and stabilization.
- **Regulatory Compliance:** Established RBI-compliant controls while managing CAB approvals and production release governance.
- **Analytics:** Built Power BI and Clarity dashboards enabling faster portfolio reviews and leadership decision-making; introduced Scrum governance.

Senior Consultant | Capco | Bengaluru, India | 2019 – 2021

- **Lifecycle Ownership:** Directed complete project lifecycles from requirements through deployment and post-production support.
- **Decision Support:** Developed business cases, strategic plans, Steering Committee presentations, and executive documentation.
- **Financial Governance:** Managed budgets, resource allocation, delivery schedules, and financial commitments ensuring controlled execution.
- **Standardization:** Standardized execution practices through governance reviews, milestone tracking, and continuous operational improvements.
- **Mentoring:** Mentored junior Project Managers while eliminating repetitive manual activities to accelerate execution efficiency.

Assistant Manager | Gradmener Technology Pvt. Ltd. | Bengaluru, India | 2017 – 2019

- **RPA Implementation:** Implemented Robotic Process Automation (RPA) streamlining business operations and execution efficiency.
- **Process Redesign:** Redesigned manual workflows into structured automated processes strengthening operational consistency.
- **Reporting Automation:** Developed automated pipeline and project reports improving visibility for business and leadership teams.
- **Transformation:** Established operational frameworks supporting sustainable transformation initiatives and continuous improvement.

Senior Delivery Consultant | Capgemini India Pvt. Ltd. | India | 2013 – 2016

- **Global PMO:** Led PMO operations across India, UK, Netherlands, and UAE supporting enterprise client programs.
- **ERP Delivery:** Delivered the Grolsch SAP implementation on a multi-million-euro budget with successful production deployment.
- **Quality:** Achieved zero-error audits through standardized project controls, governance practices, and delivery discipline.
- **Collaboration:** Implemented SharePoint environments and executive dashboards strengthening enterprise collaboration and reporting.
- **Distributed Teams:** Directed distributed teams while managing milestones, dependencies, and implementation activities.

Team Lead | NTT DATA | India | 2009 – 2013

- **Telecom Operations:** Managed tariff operations and digital front-end initiatives for T-Mobile and Orange, developing automated reporting solutions that improved operational monitoring and management decision-making.
