VINODH KUMAR POOMARI

AI-ENABLED DELIVERY LEADER | PMO REPORTING & PORTFOLIO INTELLIGENCE

+91 74835 92435 • vinodh.poomari@gmail.com
Medavakkam, Chennai, India • linkedin.com/in/vinodh-kumar-poomari-6b078543/

EXECUTIVE PROFILE

Enterprise program and PMO leader with 16+ years of experience across banking, wealth management, telecom and enterprise transformation. Combines portfolio governance, executive reporting, financial controls and cross-functional delivery leadership with hands-on AI product prototyping and workflow automation. Experienced in translating complex delivery data into decision-ready dashboards, RAID insights, leadership packs and actionable delivery plans. Trusted to coordinate distributed teams, support senior stakeholders, strengthen delivery discipline and improve transparency across programs.

LEADERSHIP STRENGTHS

- **AI & Workflow Enablement:** Prompt engineering, GPT-based workflows, AI-assisted product development, meeting-note-to-ticket workflows, RAID analysis and RPA.
- **PMO Reporting & Portfolio Intelligence:** Executive dashboards, portfolio scorecards, leadership packs, weekly/monthly reporting, trend analysis, SLA/KPI/OKR tracking and data quality.
- **Program & Portfolio Governance:** Project charters, business cases, roadmaps, steering committees, RAID, dependency management, change control, delivery recovery and governance cadence.
- **Financial & Resource Controls:** Budget and forecast tracking, resource planning, utilization, timesheets, invoicing, revenue recognition, gross-margin analysis and vendor governance.
- **Delivery & Transformation:** Agile/Scrum and hybrid delivery, enterprise implementation, regulatory controls, UAT, deployment readiness, stakeholder alignment and change management.

AI PRODUCTS & APPLIED INNOVATION

AI Product Builder | Independent / Passion Projects | 2025–Present

- **PM Control Tower — Enterprise PPM Platform:** An AI-enabled portfolio management concept bringing portfolio-to-task visibility, critical-path scheduling, EVM metrics, RAID governance, forecasting and executive leadership reporting into one control-tower experience. Live: https://pmct.vercel.app
- **Jigglypuff — Unified Voice AI Assistant:** A local-first voice AI assistant concept combining natural conversation, research with citation cards, meeting transcription and summaries, plus human approval gates for higher-risk actions. Live: https://jigglypuff-ai.vercel.app
- **The Fix — Solution Discovery & Architecture Engine:** An agentic AI solution-design concept that converts requirements into costed architecture options, KPIs, success scoring and six-week proof-of-concept blueprints, with diagram and document exports. Live: https://the-fix-optinus.vercel.app
- **Bumblebee — Enterprise AI Coworker Platform:** Built an AI workspace combining persistent chat, live web research with cited sources, long-term memory, customizable bots, and an observable plan–execute–verify agent engine. Includes scheduled routines, document knowledge search, downloadable file generation, multi-provider model support, connector integrations, approval gates for sensitive actions, workspace isolation, audit trails, usage analytics and administration controls.
- **Optinus Resource Management Tool:** Built a full-stack resource demand and candidate-tracking platform using Next.js 16, TypeScript and Prisma ORM, with AI-powered ATS scoring and 12 integrated modules spanning dashboards, open demands, resource databases, Kanban pipeline tracking, clients, reporting, ATS validation, import/export, audit logs, settings and user management. Supports six role-based user roles and the end-to-end recruitment lifecycle from demand creation and candidate sourcing through CV submission, interviews, selection and onboarding. Key capabilities include LLM-based PDF/DOC/DOCX resume extraction, batch resume-to-job-description match scoring, flexible CSV/TSV/JSON imports with delimiter detection, immutable status history, global locations, INR/USD/EUR cost tracking and Docker-based offline deployment. Provides real-time KPIs, conversion funnels and aging analytics to help PMO teams, resource managers, recruiters and leadership identify bottlenecks, improve candidate matching and maintain an auditable single source of truth.
- **AI Workflow Automation:** Created prompt-driven workflows to transform meeting notes into structured Jira tickets and status reports, and to assist with RAID analysis, project documentation, risk assessment and stakeholder communication.

TECHNOLOGY & REPORTING TOOLKIT

PMO / Delivery: Jira, Confluence, Clarity, MS Project, SharePoint, MS Visio
BI / Reporting: Power BI, Tableau, Excel, advanced formulas and macros, executive scorecards

Automation / AI: Prompt engineering, GPT workflow automation, Claude.ai-based workflows, RPA, AI-assisted development
Enterprise / Methods: SAP, Microsoft Office 365, Agile, Scrum, hybrid Agile–Waterfall, RAID, SLA/KPI/OKR governance

PROFESSIONAL EXPERIENCE

Senior Program Management Consultant | Capco Technology Pvt. Ltd.

Apr 2022–Present Chennai / Bengaluru

- Lead program and portfolio delivery for global banking and wealth-management initiatives, including HSBC WPB Asset Management Client Business, aligning delivery priorities with business outcomes and regulatory expectations.
- Develop project charters, business cases, delivery roadmaps, program structures and governance cadences; coordinate cross-functional and multi-geography teams across requirements, implementation, UAT and release.
- Create decision-support reporting and analytics frameworks, using Power BI and Clarity for portfolio visibility, delivery health, performance metrics, resource optimization and executive decision-making.
- Serve as a subject-matter expert for Jira and Confluence, shaping tracking practices, automated workflows and reusable delivery processes; coach project managers on Agile practices and tool adoption.
- Manage risks, issues, dependencies, change and escalations; facilitate leadership reviews and maintain alignment between business, technology and delivery teams.
- Earlier Capco assignment (May 2019–Aug 2021, as listed in supplied CVs): HSBC Retail and Wealth Banking Digital Portfolio Lead for Channels and Accounts, covering portfolio tracking, stakeholder coordination, reporting, delivery governance and financial oversight.

Senior Consultant – Liabilities & Treasury Projects | Ujjivan Small Finance Bank

Aug 2021–Mar 2022 Bengaluru

- Led end-to-end delivery of Digital Account Opening, Video KYC and Digital Savings initiatives, with zero-audit-error go-lives reported in the supplied resumes.
- Owned planning, RBI-aligned audit controls, vendor governance, CAB approvals, deployment documentation and post-implementation stabilization.
- Built executive reporting using Power BI and Clarity; produced weekly/monthly status packs, trend analysis, RAID logs, risk indicators, SLA tracking and lessons-learned repositories.
- Managed vendor lifecycle activities from partner selection and milestone tracking through invoice verification and resource allocation; coordinated business, operations and IT stakeholders.
- Used AI tools and prompt engineering, including Claude.ai-based workflows, to support project documentation, risk assessment and stakeholder communications; coached teams on Scrum ceremonies and tool optimization.

Assistant Manager – Project Delivery & Automation | Gradmener Technology Pvt. Ltd.

Apr 2017–May 2019 Bengaluru

- Implemented RPA solutions for passport scanning, client database management and duplicate-alert workflows to streamline operations and reduce manual processing.
- Developed automated pipeline, in-flight project and completion dashboards, improving visibility of project health, resource utilization, SLA performance and completion metrics.
- Established governance and reporting frameworks, maintained daily project tracking and prepared weekly executive KPI reports for leadership decision-making.
- Coordinated cross-functional teams and suppliers across time zones; escalated risks with impact assessments and supported business reviews, vendor performance management and continuous improvement.

Senior Consultant – Delivery & Reporting / PMO Lead | Capgemini India Pvt. Ltd.

Jan 2011–Dec 2016 Bengaluru / Netherlands

- Led PMO delivery and reporting for global programs across India, the UK, Netherlands and UAE; standardized governance, project plans, documentation, tracking and executive reporting.
- Supported the Grolsch SAP implementation, managing delivery coordination for end-to-end business functionality and a successful go-live against program objectives.
- Managed the Mashreq Bank RTC implementation in the UAE, supporting an Agile rollout in a regulated financial environment and maintaining business continuity during technology migration.
- Oversaw more than a dozen concurrent project implementations; maintained PMO standards and project records, with zero-error audit completion reported in the supplied CVs.
- Built advanced Excel-based status dashboards and SharePoint collaboration/tracking systems; monitored SLAs, KPIs and OKRs and facilitated stakeholder reviews, action tracking and delivery follow-through.
- Supported Orange Telecom UK onsite operations, including invoicing-backlog resolution and coordination that supported new-business expansion.

EARLIER CAREER

Team Lead – Program Support | **NTT DATA**

Nov 2009–Jul 2013 Bengaluru

- Supported telecom operations and tariff-plan launches for T-Mobile, Orange and T-Systems portfolios, coordinating digital front-end activities, mobile testing and service delivery.
- Maintained project governance, RAID reporting, SLA monitoring and operational reporting; partnered with delivery leadership on priorities and cost-effective execution.
- Managed timesheet compliance, bench-strength tracking and resource utilization; supported finance calls covering invoicing, payments, revenue recognition and gross-margin calculations.
- Prepared statements of work and verified financial approvals against budget constraints; coordinated vendor communications and resolved invoicing backlogs for Orange Telecom UK.

SELECTED OUTCOMES

- Delivered digital banking product go-lives for Digital Account Opening, Video KYC and Digital Savings with zero audit errors reported in the supplied CVs.
- Created automated executive reporting and dashboard solutions for portfolio health, pipeline, resource utilization, RAID, KPIs and delivery progress.
- Supported SAP and banking technology implementations across multiple countries and distributed teams.
- Designed and shipped three AI-enabled product prototypes covering portfolio intelligence, voice assistance and solution discovery.
- Reported outcomes across source resumes include 100% on-time delivery, 15% gross-margin improvement, 20% faster project timelines and 98% customer satisfaction in specific engagements.

EDUCATION

Post Graduate Diploma in Business Management (PGDBM) – Finance | **Wigan and Leigh College (WLC), UK**

2008 Bengaluru

Source resume also describes this qualification as MBA/PGDM – Finance; confirm the exact credential title before submitting to employers.

Bachelor of Commerce (B.Com) | **Bharathidasan University**

2006 Tiruchirappalli

Source resume lists 63% for B.Com and 7.5/10 for the PGDBM/MBA/PGDM entry.

CERTIFICATION & PROFESSIONAL DEVELOPMENT

- Certified ScrumMaster (CSM) — Scrum Alliance; certification/study noted in source resumes as February 2018.
- Data Office Automation — CSC; September 2007 (as listed in supplied resume).
- Agile and Scrum delivery practices, prompt engineering, AI-enabled workflow automation, reporting automation and enterprise project-tool administration.
